This book tells the story of Tracy Higgs, now a well-known medium who works with Colin Fry and Tony Stockwell. It takes you on a journey through her childhood upbringing and how she dealt with having "the gift". It also goes in depth on her private life and how she struggled with her children in a hostel. Later in the book, Tracy describes how she developed her mediumship, with the help of friends, and it brings you right up to date to the present and how she now tours with Colin and Tony. An excellent book, well written.
